

Dear Members of the FCC, I am a regular listener of K-LOVE radio in San Diego County, California. K-LOVE is one of the best radio stations available to the public, the other is her sister station AIR1 and to lose it to LPFM would be tragic and a great loss. K-LOVE is not just a radio station, it is a resource for listeners to get help and to help others. It's much more than just music, it has a moral standard that is second to none and the ability to reach and change it's listeners lives for the good. I personally have been helped by K-love and it's staff. It's messages of encouragement and hope, it's sincere effort to reach out to it's listeners and deal with problems all around the globe and not to mention the awesome, uplifting, clean music they play. To lose K-LOVE would be a great loss for it's listeners today and listeners who yet have heard this true and fresh radio station.

Let's not forget how America reacted to Janet Jackson's clothing mal-function on television, how quickly you responded to our complaints in regards to the moral decay of television. Please step up to the plate once again and allow K-LOVE to stay and keep the moral fiber of our nation strong.

Thank you for your time,
Betty Gilroy
